# Welcome Message

Dear friends and colleagues,

It gives me great pleasure to present to you the **M³C 2.0** to be held at the Langham Place Hotel on 14 and 15 April 2012. This is an all inclusive medical conference hosted by the Association of Private Medical Specialists of Hong Kong and co-organised by 37 medical specialty societies.

The objective of this **MEGA** conference is to provide up-to-date information and most current views on a broad spectrum of medical diseases and issues. The key organising principle for this conference is to adopt a multidisciplinary approach in the understanding and treatment of diseases. With the great effort of all participating societies, a substantial programme containing many common and important clinical problems and issues is put together in the conference for all participants.

All doctors of any specialties and doctors with general interests as well as allied medical professionals are welcome to this conference to participate and to share your experience with colleagues.

This is the one largest conference that suits both specialists and generalists ever presented in Hong Kong. It is my belief that medicine is still one profession and you should attend this one conference for our profession.

Dr KWOK Po Yin, Samuel

**President**

Association of Private Medical Specialists of Hong Kong

MULTI-SPECIALTY  
MEDICAL  
**MEGA** CONFERENCE 2.0

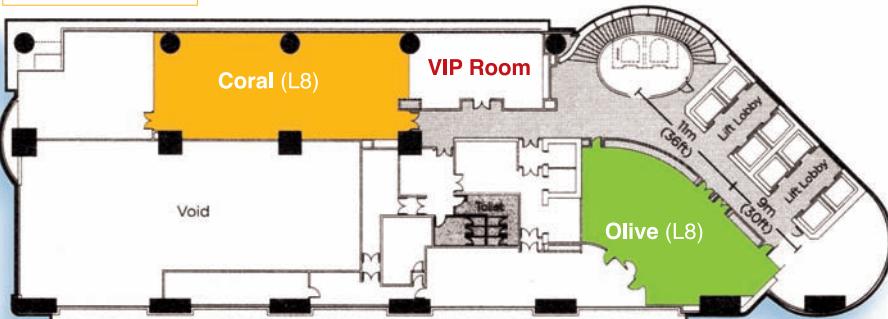

**14-15 April 2012**

Ball Room | Langham Place Hotel | Mongkok
